SAMPLE COLLECTION CARD

Species:_____

Bird ID:_____

Owner:_____

Email:_____

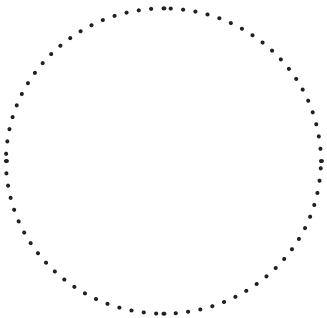

Phone:_____

☐ **DNA** ☐ **APV** ☐ **MOMP** ☐ **PBFD**

All samples must be registered *online prior to sending in results to labratory. Go to* ***upstatepetproducts.com/dna*** *to place orders and register your sample. Please email any questioning to (emaill)*

This labratory uses blood collection method from the nail of the bird. For best results, use alcohol swab to clean all the nail clippers and the top of the nail you wish to test. Have blood clotting agent ready for once test is done

Blood should go directly inside circle indicated. Failure to produce a large enough sample may prevent us from being able to get a reliable result. Please watch video on our website so we don't have any delay on your results!

watch how to test at: ***upstatepetproducts.com/testing***
